SKILLS

- Ui Development** - Outsystems, React, Redux, React-Native, Next.js, Material Ui,Antd, Tailwind Css.
- Code Hosting Platforms**-Github, Git, Bitbucket.
- Operating system**-Linux, MacOS, Windows.
- Project Management tool**-Jira, Azzure devops, Gitlab, Bitbucket, Github.

EDUCATION

- Master of Computer Applications**
Veer surendra sai university of technology,Burla
2017-2019
Scored 8.37 CGPA in MCA Program.

- Bachelor in computer application**
Rourkela Institute Of Management And Studies, Rourkela
2014-2017
Achieved 77.78% in BCA Program.

PROFILE

With over 5 years of experience, I spearheaded cross-functional initiatives to design and implement scalable solutions utilizing advanced technologies such as React.js and OutSystems. I managed the complete project lifecycle, ensuring deliverables consistently surpassed client expectations, resulting in a notable 30% increase in client satisfaction scores. I cultivated a culture of collaboration and excellence, driving high-quality outcomes that significantly contributed to client success and reinforced our commitment to delivering exceptional value.

WORK EXPERIENCE

Team Lead

Metafic,Indore 07/2022-Present

- Led the development and implementation of high-impact web applications using React and JavaScript, ensuring seamless user experiences.
- Collaborated with cross-functional teams to define project scopes and timelines, utilizing Agile methodologies.
- Implemented best practices for code quality, conducting code reviews and testing to enhance application performance.
- Mentored junior developers, fostering a culture of continuous learning and skill development in frontend technologies.
- Drove innovation by evaluating and integrating new technologies to improve development processes.
- Engaged with clients to gather requirements and provide updates, ensuring alignment with business objectives.
- Analyzed project performance metrics to inform strategic decisions and improve future projects.

Senior software engineer

GoodWorkLabs,Bengaluru 12/2021-07/2022

- Spearheaded the adoption of modern development tools and libraries to streamline workflows and improve code maintainability.
- Mentored junior developers, fostering a culture of continuous learning and knowledge sharing within the team.
- Implemented scalable, reusable components to reduce development time and increase efficiency across multiple projects.
- Optimized application performance by identifying bottlenecks and employing best practices like lazy loading, memoization, and code-splitting.

Senior software engineer

VSNStech, Pune 06/2021-09/2021

- Specialized in React JS and OutSystems for architecting and developing high-quality web applications.
- Drove innovation by integrating new technologies and frameworks to enhance application performance and user experience.
- Ensured code integrity through rigorous testing and adherence to best coding practices.
- Collaborated with cross-functional teams to define project requirements and

EXPERTISE

- Frontend Development:** Extensive experience in developing scalable web applications using ReactJS, Redux, and React Router, focusing on seamless user interfaces and optimized performance.
- UI/UX Leadership:** Led design efforts for various projects, ensuring efficient functionality and an intuitive user experience.
- Cross-Functional Collaboration:** Proven ability to work with diverse teams, including software engineers, program managers, and designers, to deliver high-quality software solutions.
- Mentorship and Teamwork:** Experienced in mentoring junior developers and fostering a collaborative development environment.
- Version Control with SVN:** Proficient in using SVN for source code management, ensuring smooth version control and collaboration across development teams.
- Collaboration and Communication with Slack:** Utilized Slack for team communication, effectively coordinating with cross-functional teams, tracking progress, and maintaining transparency throughout project development.
- Tool Integration:** Experienced in integrating Slack with project management tools and SVN for seamless notifications and updates on project milestones and code changes.

Associate Consultant

Invincix Solutions, Bhubaneswar

09/2020-05/2021

- Gained valuable experience working on diverse projects, including Ahub (Sharetribe marketplace template), Serity, and Lobox, utilizing ReactJS.
- Handled high-level design and managed technical designs for complex application features.
- Collaborated with cross-functional teams to implement and enhance user interfaces, improving overall user experience.
- Contributed as a backend developer on projects like Instablood (live Android app) using Node.js.
- Optimized existing software by addressing errors, enhancing interfaces, and improving overall performance.
- Engaged in continuous integration and deployment practices to streamline development processes.
- Actively participated in code reviews to ensure code quality and maintain best practices.

Software Developer

InnoverenIT Services, Bhubaneswar

06/2019-09/2020

- Worked on notable projects such as Medist CRM and Korero CRM, utilizing a tech stack that includes ReactJS, Redux, React Router, and Moment.
- Played a pivotal role in high-level design and managed technical designs for complex application features.
- Contributed significantly to the UI development process, ensuring a seamless user experience in web applications.
- Collaborated with cross-functional teams to implement features that enhance user engagement and functionality.
- Engaged in testing and debugging to optimize application performance and reliability.

Intern

Appstone, Bhubaneswar

12/2018 - 04/2019

- Collaborated within a cross-functional team of 5 interns, including software engineers and a program manager, to develop an online music system application using React JS and Node.js.
- Led efforts to define the design and user experience, ensuring efficient functionality and a delightful user interface.
- Demonstrated effective collaboration with design teams to achieve seamless integration of software solutions.
- Managed project milestones, ensuring timely delivery of key features and functionality.
- Played a key role in troubleshooting and optimizing the application for enhanced performance.
